CAREER OBJECTIVE

- Recent Computer Science and Engineering graduate with a strong interest in full Stack development, Python and SQL. I have Knowledge on building web applications using HTML5, CSS3, JavaScript, React.js, Node.js, REST APIs. I have willingness to learn with Strong Problem Solving Skills.

TECHNICAL SKILLS

- Programming Languages:** Python, SQL, JavaScript.
- FrontEnd:** HTML5, CSS3, Bootstrap, JavaScript, React.js.
- BackEnd:** Node.js, Next.js, REST APIs.
- Databases:** MySQL, MongoDB.
- Tools and Other:** Git/GitHub, VS Code, Antigravity, Vercel.

EDUCATION

- Baba Institute of Technology and Sciences** Visakhapatnam, Andhra Pradesh
B.Tech (Bachelor of Technology) in Computer Science and Engineering 2022 – 2026
- CGPA: 7.78/10.0

ACADEMIC PROJECTS

- Student Club & Event Management System - MERN Stack** [Live Link](#)
Developed a full-stack platform for managing student clubs, events, memberships, and attendance. Implemented automated participation certificate generation. Built admin dashboards with analytics for tracking events, attendance, and student engagement. Integrated Supabase Realtime and AI-assisted features for communication and improved user experience.
Technologies Used: React.js, Vite, JavaScript, Tailwind CSS, Supabase, PostgreSQL.
- Home Service Provider – E-Commerce Platform** [Live Link](#)
Developed a responsive React-based platform for browsing and searching different home services. Implemented user registration, login, profile management, and protected routes. Created service listing, service details, search results, notifications, and contact features. Used localStorage for session persistence and Framer Motion for interactive animations.
Technologies Used: React.js, JavaScript, HTML5, CSS3, Bootstrap, React Router, React Icons.

INTERNSHIPS

- Full Stack Development Intern – Unified Mentor Pvt. Ltd:** Completed a 3-month Full Stack Web Development internship. Developed responsive web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Worked on frontend and backend development, REST APIs, and database integration. Applied problem-solving skills and followed best coding practices to deliver scalable solutions.

CERTIFICATIONS

- MERN Stack Development – XceedIQ Pvt. Ltd.** [Certificate](#)
- Web Development Course – Aajhub** [Certificate](#)
- Introduction to SQL with MySQL – Udemy** [Certificate](#)

ADDITIONAL INFORMATION

- Strong Written and verbal communication skills; comfortable collaborating with cross-functional teams.
- Open to relocating at any location.
